

# Takakita

## WM 511

### Mini Round Bale Wrapper

The Takakita Mini Round Bale wrapper is 100% made in Japan. It is for those farmers who wish to store mini round bales anywhere on their farm without the cost of another building. This wrapper is for those who wish to bale haylage or silage also. The machine is very reliable and simple to operate.

The Takakita WM511 runs on any 110-voltage outlet. It can wrap over 100 bales per hour in average conditions.

For more mobile applications, this machine can operate using a small 2000-watt generator

The wrapper uses 10-inch wrapping film and has three settings from 2,4 and 6 wraps.

One Roll of wrapping film can wrap 150-200 bales depending on which baler is used and the setting for the number of wraps

#### Specifications

- Length 69" Width 33"  
Height 36"
- Weight 145lbs without film
- Film length 9.89"
- Motor Voltage 110
- Motor HP ½
